

## ITG Communications Expands Damage Prevention Operations with Acquisition of Centerline Utility Services

April 29, 2026

**Fort Lauderdale, FL – April 2026** —*ITG Communications* has acquired *Centerline Utility Services*, a utility locating company with approximately 100 employees operating across Maine, Massachusetts, New Hampshire, and Vermont. The acquisition expands ITG's damage prevention operations in the Northeast and adds regional capacity to support utility and infrastructure programs.

Centerline provides underground utility locating services for Dig Safe requests on behalf of major utilities, as well as private locating for engineering firms, industrial facilities, and residential projects across New England.

With this acquisition, Centerline's operations and workforce are incorporated into ITG's Damage Prevention division, increasing the company's ability to deliver locating services across multiple states while maintaining consistent local execution.

"This further strengthens our in-house locating capabilities within our operating model," said Guilherme Elias, President of ITG Communications. "Centerline expands our ability to support customers across the full project lifecycle, from planning through field execution."

"This expands our footprint in the Northeast with teams that understand local requirements, utility coordination, and the pace of work in these markets," said Andy Parrott, Chief Executive Officer of ITG Communications.

"Centerline was built on accurate locates and a disciplined approach to field work," said Bob Briggs, Chief Executive Officer of Centerline Utility Services. "Joining ITG gives our team the ability to operate within a larger platform while continuing to deliver the same level of service to our customers."

Centerline will continue operating in its existing markets under ITG, supporting ongoing utility contracts and regional locating programs.
